Job Role: DevSecOps Lead

We are seeking an experienced and forward-thinking DevSecOps Lead to drive the development and implementation of processes that handle the entire lifecycle of vulnerabilities and streamline them for the operations team. The ideal candidate will possess in-depth expertise in SonarQube, Nexus IQ, Deep Factor, Jenkins Pipelines, and Kubernetes, with a strong focus on security, automation, and continuous integration/continuous delivery (CI/CD) practices.

Requirement:

- **Lead Vulnerability Lifecycle Management:** Design and implement processes to identify, track, prioritize, and remediate vulnerabilities, ensuring efficient handover to the operations team.

- **Security Tool Integration:** Utilize and manage security tools such as SonarQube, Nexus IQ, and Deep Factor to continuously monitor and assess application security risks.

- **Pipeline Automation:** Build and manage Jenkins Pipelines for automating security checks, vulnerability scans, and code quality assessments.

- **Kubernetes Deployment and Support:** Oversee the deployment and support of SonarQube and Deep Factor within Kubernetes environments to ensure scalability, reliability, and security.

- **Collaboration & Leadership:** Collaborate closely with development, operations, and security teams to embed security practices across the CI/CD pipeline.

- **Continuous Improvement:** Proactively identify areas of improvement, recommending and implementing changes to enhance the security posture of the organization.

Qualifications:

- Proven experience in **DevSecOps** with a strong focus on security tools and vulnerability management.

- Hands-on experience with **SonarQube, Nexus IQ, DeepFactor, and Jenkins Pipelines**.

- Expertise in **Kubernetes** for deploying and managing security tools.

- Ability to think strategically and create processes that effectively manage vulnerabilities through their entire lifecycle.

- Strong understanding of **CI/CD practices** and security automation.

- Excellent communication and leadership skills to work across teams.

Benefits:

- Competitive salary and benefits package
- Opportunity to work on cutting-edge AI projects with a real-world impact
- Be part of a dynamic and innovative team at the forefront of AI-driven BioPharma transformation

Additional Information:

- Clovertex is an equal opportunity employer and values diversity in the workplace. We do not discriminate based on race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
- We are committed to creating a positive and inclusive work environment for all employees.
